**Keywords:** neoepitopes, neoantigens, prediction, immunogenicity, mutations, MHC binding

## A corrigendum on

### An Analysis of Natural T Cell Responses to Predicted Tumor Neoepitopes

by Bjerregaard A-M, Nielsen M, Jurtz V, Barra CM, Hadrup SR, Szallasi Z, et al. *Front Immunol* (2017) 8:1566. doi: 10.3389/fimmu.2017.01566

An outdated version of Supplementary Table 1 was uploaded to the final version of the paper for publication. This table has not been under peer review and does not include the information described in the paper such as the similarity measurement column. The correct Supplementary Table 1 has now been published in the original article. The authors apologize for this oversight. This error does not change the scientific conclusion of the article in any way.

The original article has been updated.

**Conflict of Interest Statement:** The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
